

Cocktail

Our Belief

We believe that a brand has a bigger role to play. A brand can create a resonance that impacts society. In every task we undertake, you'll witness a clear embodiment of this conviction.

Every work is an opportunity

At Cocktail, we don't take this brand-building opportunity for granted; rather, we try to use it for the **greater good**, which makes life more meaningful.

Creativity with sustainability

Cocktail Advertising Limited, the first of its kind in Bangladesh, places sustainability at the center of its strategy for pointing brands in the direction of a **better world**. Our belief grounds us, infusing every endeavor with **purpose-driven** energy and igniting a spark of inspiration that reverberates through the heart of our creations.

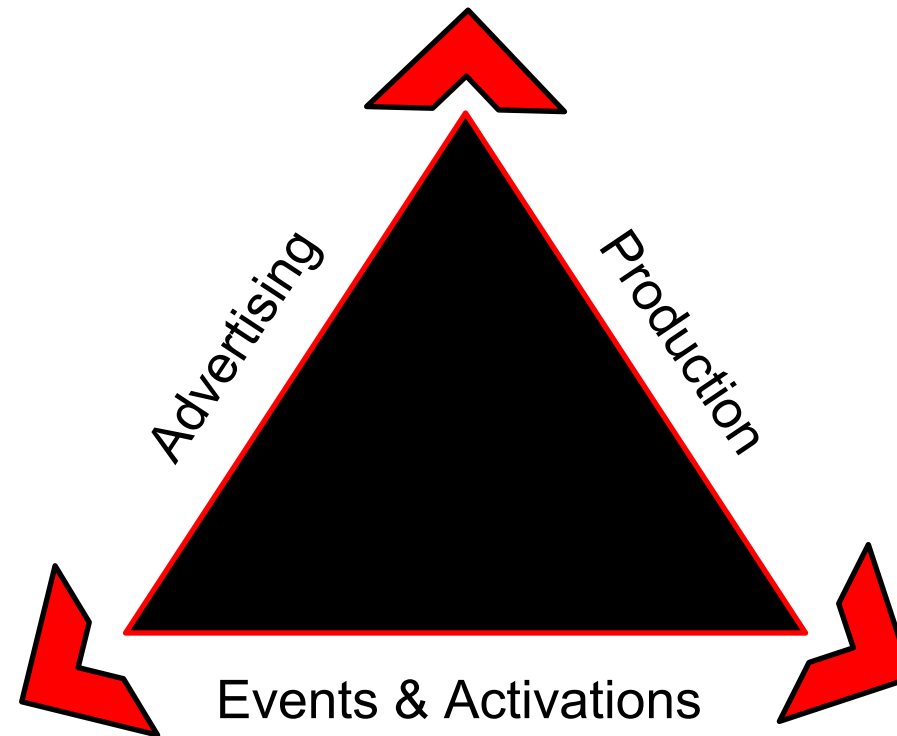

Differentiate or die

In this over-communicated society, your product or service is left with one option. Either it has to differentiate, or simply die. Cocktail Advertising Limited, a fifteen years old communication service provider, helps your product or service to differentiate and to grow into a stronger brand by providing strategic solutions and creative support .
